REASONS WHY THE
AMERICAN WATCH,
Made at Waltham, Mass.
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with he harmony of its working and no sudden shock can damage its machinery, (itself famous for its novelty, as well as for its effectiveness) and is therefore propedy made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between the grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction, for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

TALE OF AN OLD SEXTON.

A MIDNIGHT APPARITION.

O treacherous night!
Thou lend'st thy ready veil to every treason!
And teeming mischief thrives beneath thy shade.
AARON HILL.

Mr. Bolbrook was dead. He was a rich man, yet a slight acquaintance with him would have convinced even a superfluous observer that he was not a happy man. He was misanthropic in his views, though he had the reputation in the streets of being a very kind-hearted and benevolent man. Every day seemed to usher him into the arena of a new strife with the powers of misery. Apparently he was tired of life, and impatiently waited for the hour that had now come, and which would put him beyond the trials and woes of this sublunary existence.

And yet many could remember when he was a gay and cheerful person. Before his marriage with a poor but beautiful girl some seven years before his death, he wore a sunny smile, and his life seemed a pleasant dream.

Though only thirty-five when he was married, people said there was too much difference between his own age and that of his wife, who was, I believe, about twenty-two. She had been poor, and forced to content herself with few of the luxuries and gaities of life; but now she was rich, and her indulgent husband gave free access to his coffers. Wealth fostered pride and Mrs. Bolebrook became a leader of fashion—the gayest of the gay. Her beauty and influential position in society made her a queen, and her smile was courted by the brilliant and dissolute. The house when she was at home, was always filled with gay gallants and lordly ladies.

All the world could see this; and the next thing it saw, was that Mr. Bolebrook grew sad and melancholy; that his wife was cold to him and there was little, if any sympathy between them. Then the people said the poor man had married badly, and the croakers all "knew that it would be so."

Mr. Bolbrook was dead. Whatever woes had weighed him down he was beneath their reach now. People said he died of a broken heart, that the whirl of pleasures in his own home had been a hell to him; and that his gay wife had been the scorpion that had stung him to death.

For my part, I pay but little attention to the tongue of gossip. I account all it says, whether good or bad, as slander. Whatever stories I had heard concerning Mrs. Bolbrook—and I had heard many—passed "in at one ear and out at the other."

"Mortal," said a man at my door.

"That is my name," I responded.

"Mr. Bolbrook is dead, and Mrs. Bolbrook wants you to come up to the house and lay him out."

"Mr. Bolbrook!" I exclaimed, for the intelligence was very much unexpected to me, as well as to the whole city, when it was announced.

I heard that he was suffering from an attack of billious cholic; but it had not been even rumored that he was dangerously sick."

"Yes, he is dead," replied the man; "Mrs. Bolbrook wants you to make haste."

"I didn't know he was sick."

"Got very bad last night, and grew worse ever since, till twenty minutes ago when he died."

Mrs. Bolbrook's house was not five minutes' walk from home, and I hastened there to perform the offices of the dead. I was shown into the room where the corpse lay just as death had done its work. The sufferer had apparently died in the greatest agony. The bed clothes still evinced the struggle between the tyrant and his victim.

With the assistance of the man-servant who had gone to my house, I laid him out and put the room in order.

I was about to depart when the man-servant called me back. "Mrs. Bolbrook would like to see you," said he as he showed me to the parlor in front of the room in which the corpse lay.

She appeared to be in the deepest distress, and the family physician was still present using his best efforts to reduce her to a state of calmness. He had succeeded to some extent; and she spoke to me with tolerable self-possession.

"You will make all arrangements, Mr. Mortal," said she.

"I will, madam."

"Oh, it was terrible," groaned she.

"Calm yourself, Mrs. Bolbroke," interposed Da. Rowne.

"I cannot, Doctor; I feel as though I should become distracted."

"Nay, madam, control yourself," and the Dr. who was a young and very good-looking man, took her hand and uttered some sentimental remark, which I have now forgotten.

"Will you watch with him," she almost gasped, looking eagerly at me.

"Watch with him?" asked the Doctor, in surprise.

"Yes."

"The corpse must have watchers," she added more calmly than she had yet spoken.

"There is no need of them, bu——".

"I would not have him left alone for all the world," said she, with a kind of convulsive shiver.

"No possible harm could befall him."

"But it would seem so neglectful to desert the body as soon as the spirit had fled. Could you watch with him, Mr. Mortal?"

"If you particularly desire it."

"I do; I could not bear to have his remains guarded by a mere servant. You will oblige me very much."

I consented to the arrangement, and promised to return by nine o'clock in the evening.

After ordering the coffin for the deceased—for at that time they were not kept on hand to such an extent as they are now—and attending to my private affairs, I again repaired to the Bolbrook mansion,

It was customary at the time of which I write for two persons to perform the service for which I was engaged, though watching was rapidly going out of fashion, but, as my business was with the dead, I was perfectly at home in the chamber of death, and was even better satisfied to be alone than with company. I had brought a very interesting book from home, and Mrs. Bolbrook had provided a very interesting repast for me in the dining room below, so that I looked ferward to a very comfortable night. Throwing myself into the large rocking chair, which had been placed there for my use, I was soon engaged in the entertaining pages of my book. As soon as the clock struck I arose and examined the corpse, moistening the face with alcohol, and wiping away the purging of the mouth.

At eleven o'clock some one entered the house and came up stairs. They were the feet of a man, and I heard him enter the parlor adjoining the room of death. Though it seemed a rather singular circumstance that a man should enter the house at that time of night, I thought nothing more of it till I heard voices engaged in earnest conversation. In a few moments they grew louder and more distinct, and I recognized the voice of Dr. Rowne. Perhaps Mrs. Bolbrook was sick and needed his assistance. But he spoke not in the tones of his profession.—The other person spoke in a whisper; but the doctor spoke in his natural voice and seemed to be under no restraint.

The house was still as a tomb, and though I made no effort to hear what was said, the expressions "will," "three witnesses," "thirty days," and others of a similar character, came distinctly to my ears. They aroused my curiosity. Who was this Doctor Rowne? Why was he here at this unreasonable hour.

Well, it was none of my business, and half a dozen times I determined not to concern myself about it. But it was in vain that I tried to fasten my mind upon the book again; it had lost the power to interest me. I glanced at the door which opened into the room where the speakers were. It would be mean to listen, and I would not do it. It was the month of May and the weather was chilly. I had neglected to bring any extra clothing with me, and I began to feel uncomfortably cold. I arose and paced the room for several minutes.

"Both wills," came to my hearing, in the unguarded tones of Dr. Rowne.

I paused and looked at the door. Apparently the other person, who I doubted not was Mrs. Bolbrook, was speaking, but I could hear nothing. I threw myself into the chair and began to shiver with cold again. On a table lay a clean Marseilles quilt, which had been left there by a servant, and in the absence of anything better, I unfolded it and threw it over my shoulders. It completely envioloped my body and I felt quite comfortable again.

"Destroy the new will,' said Dr. Rowne.

I dropped my book, for this looked like foul play. It occurred to me that Mr. Bolbrook's poor relations would have to suffer for this midnight conference. I knew that he had an only sister, an invalid, who depended upon his bounty for subsistance, and my blood boiled with indignation as I thought of what might be the result of this midnight interview.

I arose from the chair and went to the door. That the end will justify the means I do not think is sound logic, but where a poor, suffering dependent woman was in danger of being cast upon the tender mercies of a cold world, I was content to be blamed for the meanness of eavesdropping, if thereby I could prevent so foul a wrong.

Before I did it, I could not but recall the former reputed character of Mrs. Bolbrook. Without believing much of the gossip that had been circulated concerning her, I could easily arrive at the conclusion that she had been the bane of her husband's happiness.

I had been personally acquainted with him who now lay cold in death before me, so that I was not obliged to gues at the facts of the case. My own observation, though I moved in an humbler sphere than her's, was sufficient to assure me that all was not right. I placed my ear at the key-hole.

"When we are married—"

"Hush," said Mrs. Bolbrook.

They spoke in whispers then, I could distinguish nothing more. Need I have heard more? Woman—angel or devil.

Was it she who had wept tears in my presence, who had trembled in agony of grief before me, now calmly plotting with her paramour, bargaining away the affections which should have lingered like a weeping angel over the couch of him who was not yet buried out of sight? Was it she who had groaned in bitterness at her bereavement now scheming to rob her sister-orphan of her bounty?

"O, woman, false as fair!" Yet she was not a woman; she was a demon!

The clock struck twelve, and I turned from my reflections to attend to the corpse. The alcohol which had been provided to wet the face was all used, and I needed a further supply.—Taking the dish in my hand, I went to the door with the intention of calling upon Mrs. Bolbrook for it.

First rapping at the door so as not to surprise them, I opened it and stepped into the room.

"I need a little more alcohol, Mrs. Bolbrook," I began.

She arose from her chair, and with one long and most unearthly shriek, she fell upon the floor.

"Who are you?" he gasped.

Of course, I was very much surprised at this singular reception. Long familiarity with the dead had made me so indifferent to those dreads and fears which disturb many persons, that I had little consideration for nervousness on this subject.

"Who are you?" groaned the doctor; his teeth chattering with terror.

Then it flashed upon my mind that the quilt which enveloped my body was the cause of the mischief. I was involuntarily personating the ghost of the deceased M. Bolbrook, and I do not wonder that the guilty wife, and the more wretched accomplice was terrified, when at midnight I stalked into the room. I had pinned the counterpane around my neck, so that nothing could be seen of me but my face. I was the ghostly spectre, coming—"How awful in that hour for the base treachery stings—" to cure her for the base treachery she was concocting. No wonder she fainted; no wonder even the doctor trembled.

I threw off the quilt and told the doctor who I was.

"See what you have done!" said he pointing to the prostrate lady.

"I heard some voices here, and I came for some alcohol."

"Need you have come in that garb?"

"I had quite forgotten that I had the quilt on."

"You have killed her, I believe," he continued, bending over the prostrate form of Mrs. Bolbrook. We raised her up, and placed her upon the lounge. She was not dead, and presently her eyes opened. "Where is he?" she asked, shaking convulsively.

"Be calm."

"He will haunt me all my days."

"It was only Mr. Mortal."

Her eyes glanced upon me, and then rolled up in her head. Heaven grant that I may never see such a hideous expression again. She was in a fit.

The house was alarmed and Dr. Rowne used every exertion to restore her, bnt all in vain.

"She will die," he said savagely; "you have killed her."

"Which will did you destory, doctor?" I asked.

He staggered into the corner of the room, unable to reply. He would never accuse me again, and yet I promised not to expose him; but it was in deference to the invalid sister of the deceased, that I allowed myself to be silent in the presence of infamy.

Before daylight there was another corpse in the house, and it was told for months after that Mrs. Bolbrook had been killed by the shock of her husband's death. I buried them both two days after, and I had the pleasure of seeing the Bolbrook fortune pass into the hands of the poor and deserving sister.

I have never seen nor heard from Dr. Rowne from that day to this. It is said he went to the East Indies. If he did, the devil is with him there, and always will be.

The citizens of Nashville, Tennessee, are holding anti-rent meetings in consequence of the exorbitant demands of landlords.

TO ALL THE FRIENDS OF TEMPERANCE IN CALIFORNIA.

FRIENDS AND BRETHREN:—The alarming and increasing prevalence of Intemperance and its progeny of vice and crime throughout our borders, and the death-like apathy which exists in regard to the subject, have painfully affected the minds of many persons, and led them to enquire whether the Christian men and women of California are performing their full duty in this respect. At a recent meeting of the TEMPERANCE LEGION of San Francisco, after serious consideration of the question, a Committee was appointed to call together a Convention of the friends of Temperance from all quarters of the Commonwealth, to deliberate and take action on the important subject.

In pursuance of that purpose a Convention is hereby called, to assemble in the City of San Francisco, Tuesday, Oct. 16th, '66, to be composed of delegates from all Temperance associations and Churches, organizations, and of individuals who shall volunteer in the work.

In making this appeal, we are not opening new ground. Brethern, you are fully conversant with the magnitude of the evil. You have seen and felt the universal curse. There is no need of our potraying to you the sin and shame of Intemperance, and the countless evils that follow in its train. Where there is nothing else to complain of than the pecuniary waste, nothing more than the burdensome and oppressive taxation growing out of the prosecution of crime and the maintenance of criminal courts,—of jails, penitentiaries and industrial schools,—of insane asylums, hospitals, and private and public charities—this consideration of itself might determine society to rise in its might and cast off the galling yoke. That the sober portion of community are robbed of a large part of their income for the support of a traffic which fills our borders with pauperism and crime, is, however, but a trifling consideration compared with the social corruption, the moral ruin, and the spiritual death which that traffic rains down like fire and brimstone over the land. Do you not feel the necessity of a remedy, and do not your hearts yearn with fervent desire that a way may be opened for the deliverance of our fellowmen from the cruel bondage? Let us therefore assemble together and take counsel one of another, and of our heavenly Father, and gird ourselves for the labor that may be pointed out to us.

It is well known that many communities in the Atlantic States have awakened to this subject within the past year, and that a great work has been instituted there, the fruits of which are revealed in an extensive development of moral and religious sensibility. Temperance always prove to be the hand-maid of Religion. When men abound the habit of drinking, they abandon also the other evil associations connected with that habit, and the door is at once opened for them to enter on a better and higher life. We believe that a loud and urgent cry for help comes forth at this moment from thousands of young men in California who are entering, or who have entered, the downward path, and who will rush onward to ruin if no friendly hand be extended for their aid. The cry comes also from hosts of innocent victims—mothers, wives and children—whose hands are extended to us, pleading for assistance. It may be in our power to direct the erring footsteps of the husband and father back to his neglected and abused family, and to gladden many stricken households with the rich blessings of sobriety, industry and virtue, which they have not hitherto enjoyed. Let us remember that the day is coming when we shall all be called on to answer the solemn question: "Where is thy brother?" Let us not lag behind our businessmen in the old States in this philanthropic labor. We ask that Churches and Sabbath Schools and Temperance Associations of all kinds, send delegates to the Convention; and that individuals in all parts of the State, who feel the importance of the object, whether appointed delegates or not, unite with us, without distinction of party, or creed, or denomination.

Believing that no good work can prosper without the favor of Heaven, we appeal especially to those who acknowledge the obligations of religion; and we respectfully request that ministers bring the subject before their congregations by reading this call from the pulpit, or in some other appropriate manner. We ask also that it be read and action taken on it, by every Temperance organization in the State.

Editors of newspapers throughout the State are requested to publish this call, and to lend their influence in futherance of its object. The place of meeting will be designated hereafter.

THE FUEGIANS.

The Fuegians, according to a recent work, are very little superior in the scale of intelligence to the higher classes of brutes. Inhabiting an inclement climate, their ingenuity, unlike that of stunted natives of the arctic circle, does not even extend to the simple arts of preserving warmth, by sheltering themselves effectually from the weather.

They are cannibals who appear to have no idea of a future life, though they show traces of superstition and a dread of supernatural invisible powers.

Mr. Darwin, in the work alluded to, says: "While going one day on shore near Wollaston Island, we pulled alongside a canoe with six Fuegians. These were the most abject and miserable creatures I anywhere beheld. On the seacoast, the natives, as we have seen, have guanaco cloaks, and on the west they possess seal skins.

Among the central tribes the men generally have an otter skin, or some small scrap, about as large as a pocket handkerchief, which is barely sufficient to cover their backs as low down as their loins. It is placed across the breast by strings, and according as the wind blows it is shifted from side to side.

But these Fuegians in the canoe were quite naked, and even one full-grown woman was absolutely so. It was raining heavily, and the fresh water, together with the spray, trickled down her body.

In another harbor not far distant a woman, who was suckling a recently-born child, came one day alongside the vessel, and remained there out of mere curiosity, while the sleet fell and thawed on her naken bosom, and on the skin of her naked baby!

These poor wretches were stunted in their growth, their hideous faces bedaubed with white paint, their skins greasy and filthy, their hair entangled, their voices discordant, and their gestures violent.

Viewing such men, one can hardly make one's self believe that they are fellow-creatures and inhabitants of the same world.

It is a common subject of conjecture what pleasure in life some of the lower animals can enjoy; how much more reasonably the same question may be asked with respect to these barbarians!

At night, five or six human beings, naked and scarcely protected from the wind and rain of this tempestuous climate, sleep on the wet ground, coiled up like animals.

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, SEPT. 29, 1866.

RELIGIOUS.—Rev. A. E. Hill will hold Episcopal service at the Union Church to-morrow morning and evening.

AGENT.—Mr. W. A. SELKIRK, a gentleman well known to a large number of the citizens of our county as a thorough, uncompromising Radical, is now out on a canvassing to ur for this office. Our friends throughout the county will confer a great favor upon us by rendering him such assistance as may be in their power. He is empowered to make collections for the Weekly ENQUIRER, and also, to receive subscriptions for the Semi-Weekly ENQUIRER, a paper to be commenced on Tuesday, November 6th, 1866.

TEMPERANCE.—We call attention to the address of the Committee of the Temperance Legion for a convention to be held in San Francisco, Tuesday, October 6th, 1866, published on the first page of to-day's paper. The object for which the address is issued should enlist the zealous cooperation of every good citizen. It is unnecessary for us, on this occasion, to enumerate the long catalogue of evils attendant upon the habit of intemperance, examples may be daily seen in every village of our country, and it is to remedy this ruinous and demoralizing state of things that the Committee desire; they appeal not only to the Temperance organizations in the State but to all the Sunday schools, religious denominations, and political sects. It is to be hoped that all without regard to party or denomination will respond to this call.

FUN AHEAD.—We are authorized to announce to the ladies and gentlemen of this place and the neighboring towns that the renowned and famous Taylor Family contemplate visiting this neck o' woods at an early day for the purpose of giving one of their humorous, wonderful, magical, local, vocal, comical, poetical, mirth-provoking, side-splitting, original, enrapturing, versatile, choice and delightful entertainments. This troupe partakes more of the parlor character than the theatrical, and nothing is said or done that the most sensitive could not hear or witness with the utmost propriety. Such exhibitions as the proposed one should be encouraged by every head of a family, furnishing as they do, innocent, polite and profitable amusements. Due notice will be given of their arrival.

GREAT inconvenience and disappointment was experienced by our citizens on Thursday morning last, occasioned by the non-arrival of the mail train at the usual hour. The delay was owing to the bolting of a locomotive attached to a gravel train at or near Colfax. The accident was a harmless one, and those who had acquaintances and friends aboard were soon relieved of all apprehension by their safe arrival a little past twelve o'clock. We hope, however, the delay will not occur again, as we, with the rest of the readers of the Daily *Union*, were without that valuable paper longer than was at all pleasant.

RECONSTRUCTED.—Henry A. Wise, who, we believe was the most violent Secessionist during the rebellion, has now seen the error of his way and came out recently in the following emphatic manner in a late speech at Norfolk:—"He is, I fear, an infidel who doesn't see that the fire and sword of this war were sent from heaven. God knew that we could be turned away from our black idol of slavery only by fire and blood and the drawn sword of the destroying angel of war. He sent them, and we ought to praise the Most High that he did not send worse plagues, like those of Egypt, against whatever weakness or wickedness we clung to like Pharoah.

I. O. OF G. T.—The following are the officers elected by the Grand Lodge of this State of the Independent Order of Good Templars: Dr. C. S. Haswell, G. W. C. T.; A. A. Smith, G. W. C.; Miss M. L. Wilson, G. W. V. T.; Wm. H. Mills, G. W. Sec.; Mrs. E. W. Frazier, G. W. Treas. For delegates to the Right Worthy Grand Lodge: Dr. C. S. Haswell, Rev. G. B. Taylor, Jno. F. Pinkham, C. B. Proctor and E. H. M. Bailey. For alternates: Mrs. R. Anderson, Miss Delight S. Baldridge, Miss P. V. Gabbs. This order is represented as being in a most flourishing, prosperous condition, and bids fair to accomplish much good, in which we wish them God speed.

UNUSUAL.—We are informed that the supply of water to the mines in the vicinity of Gold Run has exceeded all expectations both as to the length of time and quantity. There is now running to these mines some eight hundred inches by the Yuba ditch alone, and the quantity furnished by the other ditches must make quite a difference in the mining operations of that locality in comparison with former years.

SUIT TO PROTECT TRADE MARK.—Suit has been Commenced in the Twelfth District Court, says the San Francisco *Morning Call*, by A. B. Falkenburgh and R. P. Thomas, against Geo. R. Lucy and Charles Hymes, and for cause of action aver that they have been doing business under the firm name of the "Standard Soap Company," and one of the plaintiffs having invented a preparation or compound for washing purposes, and gave thereto the name of "*Concentrated Erasive Washing Powder*," the said compound was for sale in packages of various sizes, marked with a label adopted by the plaintiffs as a trade mark. By reason of the excellency of the article and the efforts of the plaintiffs to place it before the public, it has acquired a high reputation as such, and has commanded, and still commands, an extensive sale. The defendants, totally disregarding the rights of the plaintiffs, have put up an article in imitation of the plaintiffs' article, which, with intent to defraud and deceive the public, they have caused to be put up in similar packages and labelled with a similar label. By reason of this fraud upon the public and disregard of the rights of the plaintiffs, they have suffered great damage, and pray the Court to grant them damages in the sum of $5,000, and an injunction restraining the defendants from preparing, putting up, or offering for sale said imitation.

THE total receipts of the State Fair amounted to $13,393 50. At the close, the Society presented their President, Charles F. Reed, with a handsome gold watch and chain.

THE Folsom *Telegraph* has entered its tenth volume. It is sound on the main question and deserves a liberal support.

THE work of laying the track on the Pacific Railroad is progressing rapidly.

RAYMOND AND BENNETT.

Raymond of the New York *Times*, the Chairman of the Union National Central Committee, and Bennett, of the New York *Herald*, are telegraphically reported to have changed front on the one living issue in American National politics, and it is now asserted that both of these leading representatives of the press are out in open advocacy of the Congressional plan of reconstruction. Few of our readers are ignorant of the fact that Raymond has been, to a very great extent, the President's favorite medium of communication with the public, so far as the press was concerned, while Bennett and his paper have occupied the middle ground between the professed Union and ultra-rebel endorsers of President Johnson's opposition to the Congressional plan of reconstruction.

In view of these defections from the Johnson and accessions to the Congressional party, the Sacramento *Union* and other leading radical papers of our State have adopted the theory that such action has been in accordance with the proverb that "rats desert a sinking ship," and these papers have denied that the *Times* and *Herald* are entitled to any credit for their adhesion to and advocacy of the radical cause. Admitting that there is much apparant justice in this position, and that the attitude of the editors referred to, after the full discussion which the subject at issue has received in Congress, through the press and before the people, was such as to justify the opinion that they would probably have adhered to the Presidential plan, and would have ostracized those who supported the Congressional plan, if the prospects of the former for success had been promising, we are yet inclined, for charity's sake, and the sake of argument, to admit that the change has been controlled by patriotic and conscientious motives, and proceed to examine the altered situation from the stand-point of such charitable admission.

During the administration of President Lincoln and up to the time of the split between Johnson and Congress, Raymond was generally credited with thorough Unionism. After the split, in common with Johnson, Raymond professed to be consistent with his past record, a believer in the Constitutionality of the war and the abolition of slavery. Furthermore, with Johnson he professed to believe that the Southern people accepted the results of the war in good faith and were loyal to the Government in its renovated condition.

On this latter point hundreds of thousands of those with whom he had formerly acted and of whom, as Chairman of the Central Committee he was the ostensible representative, differed with him. Quite consistently, Johnson and Raymond advocated the immediate admission into full participation in the Government, of those whom they professed to believe equally loyal thereto with any others who already shared in it. Equally consistent, those who could not agree with Johnson and Raymond in their belief were opposed to the admission of those whose loyalty they doubted, to a controlling influence in the Government to which they believed them disloyal. Notwithstanding this difference, however, the supporters of Congress were willing to concede to the late rebels all the privileges in the Government claimed for them by Johnson and Raymond, *provided* the professed loyalty was guaranteed and secured by Constitutional provision. The only difference was, that the latter claimed a somewhat stronger assurance than the former. Against satisfying this demand for stronger security Johnson arrayed the entire power and patronage of the General Government. They removed officials, called a National Convention for the avowed purpose of organizing a new party, made the official robes of the Chief Executive a catch-penny bid for auditors of malevolent partisan harangues and disgraced the Presidential office and through it the Nation, by demagogic responses to welcomes tendered through simple respect for the position held by the welcomed. After Johnson's 22d of February speech; after the massacres at Memphis and New Orleans; after the Philadelphia Convention, the speech of Orr, the letter of Vallandigham and the address of Forrest and his compeers, Raymond still supported the President and endorsed his high-handed usurpations.

At a later day, he professed to doubt the sincerity of Vallandigham and the Auburn Regency and forswore connection with them. On this latter proposition Bennett took issue with him and backed the Copperhead treason to Union treachery. Now, both Raymond and Bennett desert their former standard and espouse the principles which we believe to be right.

The question is—what shall we do with them?

In the fullness of our charity, we say, take them in. If they profess to accept the situation, give them full credit for honesty. If they render efficient aid to the true cause, reward them accordingly.

But, if it were proposed to prefer the *Herald* above those papers which have ever been staunch and true, or to continue Mr. Raymond in his position of Chairman of the National Central Committee, our charity would be found oozing out at our finger-ends, and we should be disposed to insist on some *additional guarantees*.

OF INTEREST TO SOLDIERS.—The Army Bill, before amended, gave the volunteers in this State a very poor chance for obtaining appointments in the regular service, as it only provided for appointments being made in proportion to the number of troops furnished by each State during the war. This would practically exclude the Pacific States, as they were not called upon to furnish any troops. The Hon. John Conness amended the bill so as to give our men a chance. In a letter to a gentleman in this place he says: "I caused California, Oregon and Nevada to be excepted from this rule, and the Secretary of War informs me that he will adopt the following, applicable to those States: "Taking the State that furnished the largest number of men in proportion to their arms-bearing population, he will give us the number which our arms-bearing population will show us entitled to, assuming that had we been called upon for our quota we would have furnished it." We give publicity to this, thinking that perhaps it is not generally known, and that it may benefit some of our volunteers.

MURDER IN LOS ANGELES.—The *News* says: "The body of a man supposed to have been prospecting for gold, was found in Santa Anita cañon a few days ago. He had been shot in several places and his head crushed as if struck with an axe. No clue has yet been found of the fiend who perpetrated the horrible crime.

RAILROAD ABUSES.

As is well known, we have ever been staunch friends and ardent advocates of the Pacific Railroad enterprise. Nothing gives us more pleasure than to chronicle the progress of the road. None can be prouder than we that it will soon reach an altitude "greater than that of Mount Washington, the highest peak in New England." This feeling of pride and pleasure in the progress of a work which stretches through the entire length of our county and passes our very door, would be natural, even under the ordinary circumstances which attend the construction of similar works, but those feelings are greatly enhanced by the consideration that this is, in the fullest sense of the word, the "people's" enterprise. Every dollar necessary for the construction of the road, and millions of money and an immense scope of public lands beside, are given by the people to the corporation, and, so far as the construction of the road is concerned, no pauper ever fed within an almshouse who was more completely the almoner of the public than are the corporators of this Central Pacific Railroad. With this condition of things we do not, nor does the public, grumble. We do not grudge the Company one shilling of their immense subsidies. We would not, nor do we believe there are any who would, throw a single obstacle in the way of their vigorous and successful prosecution of their enterprise. On the other hand, the people whose money and public lands furnish the means to build the road and enrich the builders, have a right to expect and demand that these recipients of their favor should display some measure of decency, justice and humanity in their dealings. Our attention has frequently been called to incidents connected with the dealings of the builders of this road with their employes which were contemptible and despicable, but we have been inclined to regard them as exceptional, if not unavoidable, but the reports of such transactions have become so numerous that we would be derelict as a faithful public servant should we continue to wink at them or refuse to give them publicity any longer. In doing this, however, we will premise what we may say, by avowing our belief that the contractors are not knowing to the abuses and wrongs which are being perpetrated in the name of the Pacific Railroad; and we believe that those whose duty it is to *superintend* the *labor* are alone responsible for the injustice practiced upon persons employed on the road. We are inclined to the belief, also, that were these petty tyrannies properly brought before the notice of the Company, remedy would, in a majority of instances, be afforded for wrongs done by the hirelings to innocent parties. Having made this preface we hope we may be properly understood; when we speak of the Company it is of those who are employed by the Company for certain specific purposes, save in those instances where the Company as corporators and recipients should be addressed or spoken of.

We are informed that in several instances those who had got out some hundreds of railroad ties have had large portions of them condemned, and have been compelled to part with them at less than half the price agreed on had their ties been accepted, and we are informed that *in every instance these condemned ties have been used*. Now, we imagine that the people expect and that *the Government has a right to demand* the use of good material in this road. If it was proper to *condemn* this material the Government and the people have been swindled by the use of it. If the material was such as the Government and people should be satisfied, the poor laborers have been swindled in being docked from a fair allowance for it. We are also informed that it is the custom to compel the laborers on this road to deal with certain preferred merchants, butchers, etc. It is charged that in one instance where a gang of Chinamen selected a butcher from whom they could obtain better meat at lower rates than they could from the Company favorite, the payment for their meat was withheld from the butcher who furnished them, and given to the other, who had not furnished them a pound, thus defrauding one man out of $500 justly due him and giving it to another who had no right to it, through favoritism or something worse. It is customary to dock employes on this road when there are but twenty-five working days in a month, but when, as in the last month, there are twenty-seven working days, no allowance is made for the extra day. We knew a trusty and faithful foreman who was discharged for mildly remonstrating against the injustice of this one-sided rule, and this man was one who had lost an eye and been cruelly maimed in the Company's service; expended over $500 for medical and other aid, without one dollar's assistance from the Company, and, when recovered, had his pay reduced $5 per month, *because the accident on the road had lessened his capacity for usefulness!* This man has a wife and three children dependent on him for support. Such instances as these, which we might multiply indefinitely, appear to us but illy to comport with the munificence of the people toward this corporation.

FRATERNIZATION.—Postmaster General Randall, in opening the Copperjohnson Convention at Philadelphia, and Senator Doolittle, its Chairman, each alluded with peculiar unction to the fact that the South Carolina and Massachusetts' delegates to the Convention entered the wigwam arm in arm. It was dwelt upon as one of the most auspicious signs of the times, and Senator Doolittle refreshed the Convention with instances in which these two States had stood forth as champions of different views, and widely diverging lines of public policy.

Since the time of the Revolution, when a few tories in Boston were found to be in league with the British General, as so many of the South Carolina chivalry were, there has always been some recreant sons of Massachusetts which have deemed it the highest honor of their lives, to do the bidding of South Carolina, and praise beyond all measure, to be deemed their social equals.

But they have never been the representative men of the old Bay State. Caleb Cushing, the lacquey of John Tyler, B. F. Haliett, the Democratic platform manufacturer, and B. F. Butler, when he voted a 150 times in the Democratic Convention to nominate Breckenridge for President, did not represent Massachusetts in the abasement of their native State, and betrayal of its interests; any more that James L. Pettigrew did South Carolina, in his devotion to the Union. And these Philadelphia old fossils, who could not get elected pound-masters by the votes of Massachusetts men, have as little right to claim that they represent Plymouth Rock, and its glorious memories, as Benedict Arnold had to claim to represent the United States in England.

It is simply absurd for a man claiming, as Senator Doolittle does, to be a statesman, to pretend that the Commonwealth which recognizes all men as equals, can fraternize with that chivalric State which has since its alleged reconstruction, placed upon its statute book, a code of laws beside which those of Draco were mild and humane; laws so barbarous that Gen. Sickles, Democrat though he is, felt compelled to annul them.

Not until South Carolina is rejuvenated and regenerated completely, will her representative men, and those who truly embody the sentiments of Massachusetts, stand on the same platform. We hope that time may soon come. But we cannot forget that this Philadelphia Convention, where the scene occurred to which we have alluded, was convened on purpose to retard this great work, and that the degenerate sons who claim to represent Massachusetts there, are aiding to keep the gulf as broad and deep as ever.

A COMFORTABLE MINING COMMUNITY.—We had occasion to visit Gold Run in the early part of the current week, and were struck with the unmistakable evidences which were to be seen on every hand of the easy comfort resulting from an industrious improvement of the opportunities possessed by that thrifty community. Without ostentation, too well satisfied with their individual lot to attempt to "blow" their claims into notoriety; entirely independent of "outside capital" and indifferent what opinion "capitalists," either Eastern or Western may form as to the reliability of their ground, or its desirability for investment, the Gold Runners have closed their most successful year's mining and are energetically at work preparing for another and still better season. The work of preparation for working claims on the scale such as is usual at Gold Run, is by no means a trifling operation. In many cases a dense growth of gigantic forest trees have to be felled each season, which, as they lie in tangled confusion, forming an impassable net-work, or are gathered in heaps and fired, remind a Western man most forcibly of a pioneersman's "clearing." In addition to the great labor of clearing away the timber on these claims, there are flumes to reset or extend; new ditches to be cut; additional sections of iron-pipe and hose to be attached to the old, and the position of the latter changed, etc. As quietly and persistently as their prototypes of the insect world—the busy ants—the miners of Gold Run have performed an almost incredible amount of labor and are now very generally prepared for the rains as soon as Providence sees fit to send them. As it is now an established and conceded fact that the lower and untouched strata is richer and more extensive than that which is now and has been for some years so successfully worked, these industrious sons of toil make their calculations and arrangements with reference to operations many years ahead, with as much nonchalant confidence as most miners do for the same number of days in advance. Montana, Idaho or any other distant gold fields stand but a poor show for having their population increased by the accession of Gold Run miners.

FINE HATS.—Persons who are reputed to be *au fait* of the matter of dress say that one cannot be well dressed without all his apparel harmonizes; and especial attention should be paid to the material and make of one's tile, as on that, more than anything else depends the well dressed gentlemen. Knowing the importance of this one article of apparel the fashionables of Sacramento patronize Meussdorffer, 125 J street, whose hats are said to be the best as they are certainly the most beautiful made in the State.

Speaker Colfax is put up in State committees' books for speeches during the campaign at Toledo, Newark, Cincinnati, and as many others points as he can spare time for. Senator Wade, although his voice is impaired, has placed himself at the disposal of the Executive Committee, the importance of the campaign, in view of the fresh efforts of rebels North and South to gain control of the Government, making it imperative upon very lover of his country and free institutions to strip for the contest,

HORRIBLE ACCIDENT.—The Worcester (Mass) *Spy* says: "In Leicester, recently, a daughter of Henry G. Spear, ten years old, fell from a load of hay, upon a pitchfork, the time entering her mouth just back of the eye tooth and passing up through her eye into the brain. The tine was broken off and the little girl pulled it out and walked several rods to the house, when she fainted and remained unconscious for twelve hours. Since then she gradually regained her senses, and hopes are entertained of her recovery."

FACTS VS. THEORILS.—"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjunets of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Mr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Bilious, Dyspeptic and Diarrhea Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think Maggiel's Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

HOSTETTER'S
CELEBRATED
STOMACH BITTERS!
A PURE AND POWERFUL TONIC,
CORRECTIVE AND ALTERATIVE,
—OF—
Wonderful Efficacy in Diseases of the STOMACH, LIVER AND BOWELS.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fever, Cramps, Spasms, and all Complaints of either Sex, whether arising from Bodily Weakness, whether inherent in the system, or produced by special causes.

NOTHING THAT IS NOT WHOLESOME. genial and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no fierce excitant; but it is a combination of the extracts of balsamic herbs and plants, with the mildest and purest of all diffusive stimulants.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be appreciated. In case of Constitutional Weakness, Premature Decay and Debility, and Decrepitude arising from old age, it exercises an electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed it operates to reinforce and re-establish them.

The weak Stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of DYSPEPSIA, and in less confirmed forms of INDIGESTION. Acting as a gentle and painless apparient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive secretive organs.

Persons of feeble habits, liable to Nervous Attacks, Lowness of Spirits and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive and from both sexes.

The agony of BILIOUS COLIC is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

Last, though not least, it is the ONLY SAFE STIMULANT, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and somachics of the day.

No family medicine has been so universally, and, it may be truly added, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.

Sold by all Druggists, Grocers and Storekeepers every where, and by

CALIFORNIANS should test the merits of DR. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. Dec9-3m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

AT LEAST two-thirds of the Diseases with which the human family are afflicted, are brought on by the want of attention to the condition of the Blood. Whenever the blood becomes impure, no matter from what cause, the effects of such impurity are immediately felt, either in one way or another; and unless measures are at once taken to remove such impurities, the whole system becomes affected, and a long fit of sickness and sometimes death is the result. Dr. Samuel Adams, a well-known Chemist of San Francisco, has discovered certain herbs and roots, mostly of California growth, which he has combined with Sársaparilla and Iodide of Potas, and succeeded in producing a Medicine that, while it is entirely harmless in every particular, will in short time completely eradicate from the Blood all impurities of whatever nature, and will restore the patient to perfect ROBUST HEALTH. The preparation is called "ADAMS' BLOOD PURIFIER," and is for sale at wholesale at the United States Drug Store, corner of Bush and Powell streets, San Francisco, and by Dr. D. W. Strong, Dutch Flat. 40

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills ate not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHEA PILLS cure where all others fail. Which for Burns, Scalds, Childblains, Cuts and all abrasions of the skin MAGGILL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box.

MEDICAL ADVICE.—DR. WM. R. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others, to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

RHEUMATISM.

Throughout this Coast a great deal of suffering is experienced from Rheumatism. Weeks and even months of protracted and aggravated misery is endured by the victims of medical insufficiency and ignorance, which could be cured just as speedily as Mr. SPARROW, whose testimony is given below, and is only the echo of hundreds of other cases. Dr. Bourne cures without medicines, which accounts for his extraordinary success.—No. 10 Masonic Temple, Post street entrance.

SAN FRANCISCO, September 6, 1861.

DR. BOURNE:—Last winter I was nearly dead, by an attack of inflammatory rheumatism. I suffered the most excruciating pains for about five weeks, without any hope of relief, when a friend hearing of my illness, called to see me, and assured me that if I would stop 'drugging and dosing,' and go to you that you would have me walking about the streets in three days. Sure enough, although I was utterly helpless, and conveyed to your house in a carriage, lifted into the bath, yet, on coming out of it, I largely assisted myself, doing much towards dressing, and, without assistance, walked from the bath to the carriage. On the fourth day, I discharged my carriage and walked, with a friend's aid, the entire distance to your house (nearly a mile) and home again, and so on until cured. I felt myself a well man. And now I am happy to do you this little service of publicly certifying to the simple truth, leaving it to do its work among my friends and acquaintances as many chance to see this.

Your friend,
JOSEPH SPARROW.

CONSUMPTION.

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last he made me a visit, "the very picture of health." Time, which tries and proves all things, has sufficiently tested this case, and shown that neither relapse nor collapse have followed; the cure is perfect; and can be cited among the scores of similar cases the result of my improved mode of treating disease without medicine.

G. M. BOURNE.
Water Cure Physicicn,
No. 10 Masonic Temple, Post street

SACRAMENTO, April 30, 1865.

DR. G. M. BOURNE—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I had been lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August, 1864, when disease developed itself with a severe cough. I then took medicides, getting worse with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and finally I determined to leave my business and go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was wholly unnecessary, as I could be speedily cured at his establishment. I placed myself under his treatment and in one week was so improved I thought I could return home and do my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse, and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the Water Cure. I went to San Francisco—few of my friends expecting me to return; in fact, I thought my return doubtful. On arriving at Dr. Bourne's establishment (February 14, 1865,) I was not able to get into the bath without assistance, but in a few days I began to recover myself again. I remained with him only six weeks, when I felt "a wiser and better man," without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid f

DR. CHARLES H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
Northeast Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system.—Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form.—These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forebeding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females.

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor.

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to affect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor him-self.

Consultation at the office or by letter, FREE.

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer:—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and one by one the teeth dropped down and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You thus proceeded in stopping the disease, saving my my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you and DR. DEMAREST* for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.

EUREKA! THE SECRET FOUND.

Medical men have been for ages in search of an infallible cure for RHEUMATISM, without success; but the desideratum has at length been discovered.

FRANK S. SCUDDER.

MR. FRANK HEALY: I suffered considerable rheumatic pains in both shoulders for a long time. I tried many remedies to get relief, but to no purpose. I was advised to try a bottle of 'Healey's Rheumatic Liniment,' which I did, and it has greatly relieved me. I am now using the second bottle, and am confident that in a few days I shall be well. PRIVATE MEDICAL INSTITUTE

DR. J. C. YOUNG, IN 1850.

ALL FEMALE COMPLAINTS.

Consultation by letter, or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALE and IRREGULARITIES IN FEMALES are the great destroyers of health They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the coutamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles in dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT,

Cures are always Guaranteed.

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted. SEMINAL WEAKNESS OR SPERMATORRHOEA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion inaccountable falling of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, nervousness, by general deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult them, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below,

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted aid and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
San Francisco, June 16, 1864. L——H——.
Subscribed and sworn to before me, this 21tt day of June, A. D. 1864.
[L. S.] A. S. ——, Notary Public.

Seminal Weakness—A Sworn Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, I was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings, self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determind to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping trat my experience may be of benefit to others similarly afflicted, I subscribe myself

JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.
